

# How to Make a Grab Bag

Step 1) Cut string or yarn approx. 24"

Step 2) Cut your fabric in 9" squares (does not have to be exact)

Step 3) Fold in top corners (to wrong side) approx. 1" press (see diagram 1)

Step 4) Fold down top at approx. 1/2" press to form a crease

Step 5) Place string (from step 1) on crease, fold fabric down and stitch (see diagram 2). Be careful not to stitch through the string!!

Step 6) Fold bag in half with right sides together (string at top). Stitch across bottom and up side (do not stitch the string !) (see diagram 3)

Step 7) Tie the two ends of the string together in a knot, and turn bag right side out! (see diagram 4)

That's it...you have just completed your first bag!

Step 8) Repeat steps 1 thru 7 as many times as you would like!!!
