

## Ballot Layout Limits: *Portrait & Landscape*

***URCVT v.1.2.0 150-NY Ballot Limitations & Maximum Testing Range v.1.0.0*** document is solely for use in the State of New York. This document can be expanded or updated as is necessary or required. Any recommendations listed in this document should not supersede user jurisdiction procedures or other controlling governance entities.

### ***URCVT v.1.2.0 150-NY Ballot Limitations & Maximum Testing Range v.1.0.0***

All vendors have ballot limits for using Ranked Choice Voting. You should check with your voting system vendor for ballot layout limitations.

The ES&S ballot limits the Ranked Choice Voting to the following parameters:

- Portrait: 88 + Candidates + 1 Write-in and 21 Choices
- Landscape: 22 Candidates + 1 Write-in and 23 Choices

We recommend that the Universal RCV Tabulator be tested at the outer limits of the ballot layout to ensure that the software can tabulate accurately within the range of the ballot limitations.
